PORTOFOLIO

ASRUL FAMI

UI/UX

I am a six-semester Informatics student with a keen interest in Web Development and UI/UX. I have experience in designing websites using HTML, CSS, PHP, MySQL, Bootstrap, Ajax, and JavaScript. Additionally, I have experience working with frameworks such as Laravel and CodeIgniter (CI). I specialize in creating UI/UX designs using Figma and utilizing Draw.io for diagram creation. I excel at adapting to new environments and am dedicated to continuous self-improvement, aiming to make a positive impact within corporate organizations.

MY SKILL

I specialize in UI/UX design using Figma, where I focus on creating intuitive and visually appealing interfaces. In web development, I have experience building websites using Laravel and CodeIgniter 4 (CI4). For database management, I work with MySQL and use XAMPP for local development and testing. I am proficient in HTML, CSS, PHP, and have basic knowledge of Bootstrap and JavaScript. When it comes to system design, I utilize draw.io to create diagrams and workflows. I also have skills in data processing and analysis using Excel. Beyond that, I enjoy editing TikTok videos with Aligmentation, and I have a keen interest in cryptocurrency and blockchain technology.

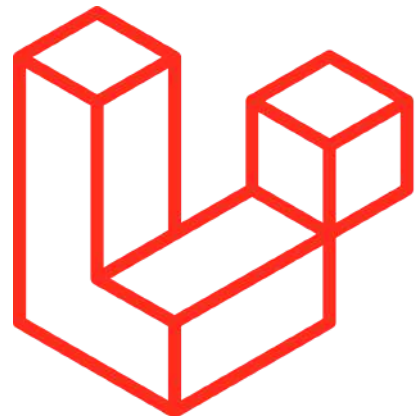

WORK SAMPLE

Tentang Kami

Inaklug adalah Konsultan Pendidikan Internasional di Indonesia yang sudah memberangkatkan lebih dari 3000 mahasiswa Indonesia yang ingin kuliah, perjalanan wisata dan berkarir di negara maju di dunia.

01. WEB DESIGN INAKLUG – LARAVEL

02

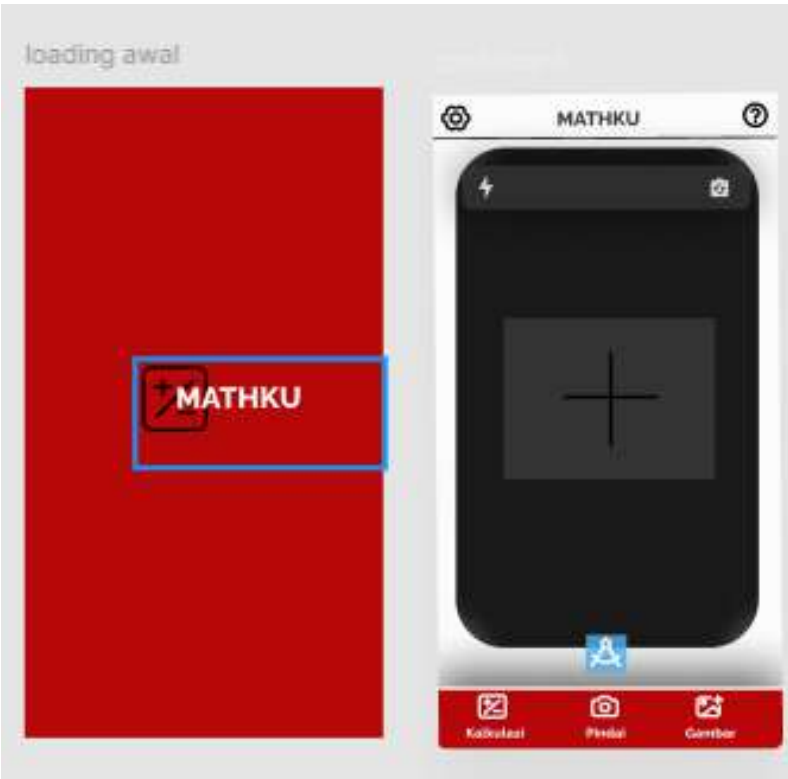

Developed a responsive 'Contact Us' page using PHP, MySQL, and AJAX, featuring Google token captcha for security

2024-2025

02. UI/UX DESIGN

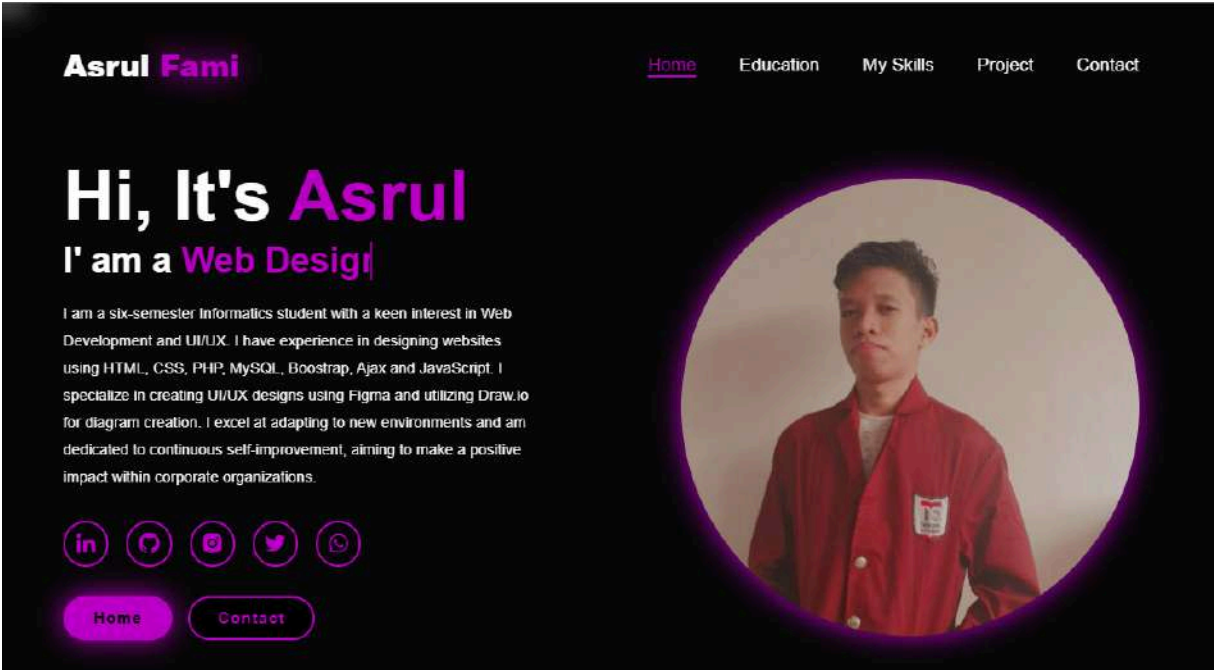

Creating the Mathku app design for interactive mathematical calculations using Figma.

03. WEB DESIGN WITH C14

Different depictions of rebellion throughout the 20th century
